

City of Livingston, Montana Solid Waste Department

Bid Specifications and Bid Form

Note: your bids must be submitted on this form.

Bid Specifications for:

One (1) Vehicle Storage and Maintenance Shop Concrete Foundation and Slab for the Solid Waste Department

The Foundation and Slab described herein shall be built adjacent to the Transfer Station at 330 Bennett Street

This Foundation and Slab will be used for a steel building for the storage and maintenance of the Solid Waste Departments equipment for the City of Livingston. The City of Livingston will be accepting bids for the construction of the foundation and slab. The successful bidder will be responsible for setting times for any setup and delivery of the complete unit to the Solid Waste Department in Livingston, MT.

Vehicle Storage and Maintenance Shop Foundation and Slab SPECIFICATIONS

The City of Livingston Solid Waste Department (the City) is hereby soliciting proposals from Respondent(s) for the provision of the following vehicle specifications:

- Construction of foundation and slab for prefabricated 50 foot by 100 foot steel building
- Drain plumbing for two bathrooms shall be included in the slab.
- Floor drains shall be included in every bay. Catch basin interceptor shall be installed before drain leads to sewer.
- All work shall have 2 Year warranty against manufacturing and construction defects.

Please contact Matt Whitman, Project Manager, at (406) 223-8268 for additional information.
