Livingston City Commission Strategic Plan & Growth Policy Meeting Minutes

July 27, 2022 1:00PM

Meeting Number: 10

1. 1:03 PM – Call to Order
2. 1:03 PM – Roll Call: In attendance –Commissioner K. Kahle, J. Willich, T. Blurock, W. Windham
 - a. Commissioner M. Nootz absent
3. 1:04 PM – Agenda item #2 – Approval of Minutes for July 13, 2022 and July 20, 2022
 - a. Motion to approve by TB, 2nd by WW, passed unanimously
4. 1:05 PM – KK discusses extending the deadline for the committee
 - a. Monday, August 1 meeting is cancelled
 - b. We'll do the regular Wednesday meeting and the Friday deep dive from 9-12
 - c. 90 extension was granted by city commission meeting
5. 1:07 PM – Goals
 - a. KK revisits the previous week's work and the slides, restating that the goal itself needs better wording
 - b. TB wants more specificity within the goals, specifically stormwater treatment within the infrastructure goal, can be a general statement with bullet points
 - c. WW is collecting the ideas being generated
 - d. TB would like to revise the land use plan, including Gateway Overlay Zones
 - e. JW asks what role the city has with ETJs considering the city is technically the county seat
 - f. TB states the ETJs are a separate legal entity
 - g. KK states that the ETJs require changes in the planning board and with how the city and county interact, adding that there are possible conflicts with the county, and they could adversely affect the working relationship between the entities
 - h. TB adds that addressing the ETJs should be a goal
 - i. WW adds that the site review process is non-existent or severely lacking, noting that it doesn't need to be added, just that it isn't included so far
 - j. WW would like to see a limit on annexation to maintain the borders of the city at or near current levels
 - k. WW noted that the land use plan is about pressure, and not about instructive use of the plan
 - l. TB compares the relative capacity of Gallatin County with Park County and their lack of advisory planning
 - m. TB muses about the city annexing the whole of Park County
 - n. WW would like to see the city boundary stay as small as possible
 - o. TB and WW agree that the county won't form a planning group for a long time, and not in the foreseeable future
 - p. TB states that since the city has a zone of influence it should exercise the control it has, concluding the ETJ should stay undeveloped/mildly developed land
 - q. JW adds the city footprint should stay as small as reasonably practicable and work on increasing assessed value and density
 - r. WW asks what we want the border to look like

- s. TB wants higher density within the city
 - t. WW states that sewer and water will limit the density outside of the city, wants to increase density with infill
 - u. JW adds prioritizing infill over external annexations
 - v. TB adds if everyone built an ADU, housing density would increase substantially
 - w. TB adds that the high-density housing behind Albertson's feels like it's in the city
 - x. WW wants to see understanding of the city's border and getting all on the same page as goal bullets
 - y. TB adds that urban design is done on a different scale than zoning planning
 - z. KK wants to add a note about the city boundary for the deep dive meeting
6. 1:48 PM – WW asks if we should move to Local Services or Housing
- a. KK states that we have two meetings next week and that now is a good stopping point
 - b. TB agrees that we should focus on Housing and Local Services next week
 - c. KK adds that MN has some great insights about the growth policy and has tribal knowledge about document that we should retain
 - d. TB is looking forward to next week's meeting
7. 1:50 PM – Member Comments
- a. WW none
 - b. TB asks haven't we had enough, in jest
 - c. JW says he's holding his comments until next week
 - d. KK says she bets JW has plenty of comments
8. 1:51 PM – End of member comments
9. 1:52 PM – Public Comments – None
10. 1:52 PM – End of public comments
11. 1:52 PM – Meeting adjourned

Public in virtual attendance: None

RESOLUTION NO. 5013

Temporary Ad-Hoc Committee to Review the Mission, Vision, Values and Goals statements of the city of Livingston.

Evaluation exercise of current statements.

Instructions:

Take each page one at a time

Reflect on each statement

1. Bring your own experience
2. Think about any external data that supports your perspective,
please note that the date

Write in the Δ column what you think needs to be changed

In the + column write what you like about the statement

Place any comments in the last section

Overview

Mission: We provide essential services, quality of life opportunities, and maintain what is best about Livingston while providing for growth in a manner that is fiscally responsible, with integrity and compassion.

Vision: A dedicated team of leaders working in collaboration with a diverse community to create a vibrant home surrounded by natural beauty, respectful of our unique history, and full of opportunity.

Values

1. Collaborative
2. Excellence
3. Integrity
4. Innovation
5. Stewardship

Goals

1. Quality Workforce
2. Financial Stewardship
3. Integrity
4. Public Engagement/Collaboration
5. Safe and Healthy Community

Greatest Issues Facing the city:

Wyeth

Reasonable housing
Workforce; pay and availability
Vision for growth
Maintaining an economically diverse population
Creating a vibrant downtown area
Supporting infrastructure needs with a tourist economy
Reducing sprawl
Support our private business so we can keep it local
Standards for the quality of our services
I feel like a lot of the problems facing the community are because of our recent economic prosperity we should try and maintain that prosperity

Melissa

Housing availability and housing diversity is low
Livable wage for workers doesn't match housing prices
Tourist economy pays low wages
Lack of diversity in jobs (a lot of jobs are based around the tourist economy)
The community infrastructure (especially connecting the north and south sides, and connecting newer north side subdivisions to pre-existing neighborhoods) is not supportive of multi-modal transportation
Tourist economy puts pressure on decreasing our available housing stock
High potential for sprawling and unsustainable development that is not following building/subdivision regulations while housing demand pressures are high

James

Crime – Major Narcotic Corridor
Railroad Crossing
Growth Management
Financial Health
Scarcity

Karrie

Growth
Housing
Lack of a City Budget
Staffing Shortage
Aging infrastructure
Changing Climate

Tom

Growth: Maintaining the city's traditional character while planning for growth
Maintaining the city's boundaries-a city surrounded by open space- growth through consolidation inside boundaries rather than sprawl- Implementation of the growth policy.
Housing: Planning for affordable housing for all citizens of all income levels
Strengthening the downtown as a commercial center, parking, housing, commercial and cultural life

Mission: We provide essential services, quality of life opportunities, and maintain what is best about Livingston while providing for growth in a manner that is fiscally responsible, with integrity and compassion.

△ What should change?

“maintain what is best” this is a hard-to-understand statement.

quality of life opportunities – I do not understand this

‘providing for growth’ -what kind of growth?

Quality of life opportunities

Providing for growth in a manner that is fiscally responsible

Integrity and compassion

Quality of life opportunities

Integrity and compassion

⊕ What is positive?

fiscally responsible, with integrity and compassion – I like these as how's

fiscally responsible, with integrity and compassion

It's a good sentiment, and should be more clearly defined

It's good to include growth – but the info from the community is what should be prioritized before \$\$

The sentiment is good

Essential Services

While MANAGING growth

Fiscally responsible

Integrity and compassion

maintaining the traditional character

General Comments

It is easy to understand what essential services and the end fiscally responsible, with integrity and compassion. The middle is very hard to understand and needs more expression.

Should equity be included in this statement

It's a nice sentiment, but it isn't clearly defined – potentially add/address some key themes from the GP concerning housing/alternative transportation/etc

Prioritizing growth based on fiscal responsibility is unclear, and not in line with our GP

These seem subjective, I wonder if there is a way to make the more quantitative

Foundation-level of city business

That's not really the city's responsibility. Can't be done fairly across the board.

Growth needs management, growth is a by-product of a well-run city

Good inclusive words with meaning.

We supply/deliver essential city services to maintain what is best about Livingston while managing growth in a manner that is fiscally responsible, with integrity and compassion. -J.Willich

We should emphasize that growth should build on what the existing character of Livingston

Mission: We provide essential services, quality of life opportunities, and maintain what is best about Livingston while providing for growth in a manner that is fiscally responsible, with integrity and compassion. while strengthening the traditional character of the city

Vision: A dedicated team of leaders working in collaboration with a diverse community to create a vibrant home surrounded by natural beauty, respectful of our unique history, and full of opportunity.

△ What should change?

This is a very broad vision and is full of how's, not outcomes. A vision is a place that we are going not a way to get there. Also, anytime you could apply a vision statement to any type of organization it is too broad.

“respectful of our unique history”-include environment/landscape/et

leaders

Create a vibrant home

diversity

Unique history

Full of opportunity

Is home the right word- or something that implies town urban etc.

Dedicated team

leaders

Vibrant home

⊕ What is positive?

‘working in collaboration with a diverse community’

Dedicated, collaboration

diversity

Unique history

Good statement

Vibrant home surrounded by natural beauty- right thought- wording could be more descriptive

History

Natural beauty

Diverse community

General Comments

Are we trying to create this or is this the way we want to behave?

Who we are talking about when we say leaders might be more clearly defined

Many would say this is already a vibrant home, this implies it is not – maybe change to *maintain/support/etc

Recognize existing diversity, address increasing diversity while maintaining existing

Add to this – recognizing layered history of this place

Unclear what this means

We should make an effort to not let the city expand through sprawl- a community surrounded by open space.

This is vague at best. I realize I’m writing my notes ex post facto, but the reality is the same.

If this is the “destination” of the MVV plan, then what are we looking for?

1. **Collaborative:** We work together effectively and transparently with the public, our boards and committees, community partners, private entities, other governments, and within our own organizations.

 What should change?

Add non-profits

Transparent – redundant from earlier

 What is positive?

I like this statement

'work together effectively and transparently'- this is an important statement, that we need to continue to improve upon

Transparency in all public business

General Comments

I like this statement. It expresses the value of collaborative.

Private entities is on here which implies businesses, should add non-profit organizations b/c there is a lot of opportunity here to get things across the finish line w/ non-profit partnerships

Should we add nonprofits to this list?

Some city boards do not have published agendas and minutes even though they hold formal public meetings

Feels a little run-on, but otherwise acceptable.

2. **Excellence:** We provide dependable, quality services through flexible and customer focused efforts with maximum competence.

 What should change?

I do not like the use of the word "customer" is not citizen better

Also the word focused feels to unspecific

Customer?

"quality services"-Excellence should include more that just services

"customer focused"- customer feels like the wrong word

Customer

Flexible

 What is positive?

I like maximum competence

Dependable, quality services

Maximum competence

General Comments

I would say that dependable, quality flexible and customer focused is not really excellence. Just feels very soft and not excellent.

People that live here aren't really "customers". We also serve people who don't pay taxes here (county residents, tourists, etc)

Good statement

We provide dependable, quality service with maximum competence.

3. Integrity: We are transparent, trustworthy, and honest; committed to doing what is fair and just while maintaining a sense of humor and sense of community.

What should change?

I feel like a sense of humor seems like a miss from integrity

Sense of community feels off also see above

Maintaining a sense of humor

“sense of humor” - humor seems incorrect -perhaps sense of humility

Sense of humor????

Transparent – redundant with collaborative

Sense of humor

What is positive?

I like transparent, trustworthy, and honest.

Transparency

trustworthy

“We are transparent, trustworthy, and honest; committed to doing what is fair and just”

sense of community

Trustworthy and honest

Sense of community

General Comments

I might think about a statement around being fair and just while applying the regulations and law.

Is this an appropriate place for this? What does humor have to do with integrity? I'm not sure – would love to discuss this.

Would love to have more clarity on what this means to the community

I would love to hear more about what this means to the community

4. Innovation: We are creative and efficient in seeking new ways to solve problems and embrace change.

 What should change?

Add while centering our community values and comprehensive plan (aka growth policy) priorities

“We are creative and efficient in seeking new ways to solve problems and embrace change.” this statement feel like it needs to be flushed out more

While providing all citizens a home within community

The whole thing, but only just the order

 What is positive?

In general, this statement appeals to me.

The whole statement

Innovation

Efficient

Solve problems

General Comments

I like that innovation for us is seeking new ways. This means we are not always forced to create new ideas we can find them else were and use them for our community.

Good statement- could be a place to insert a statement about housing for all income levels

We are always seeking to find new and efficient ways to solve problems within our community.

5. **Stewardship:** We carefully and responsibly manage our city’s infrastructure, employees, fiscal resources, and environmental impacts.

 What should change?

I think this misses managing the economic benefit.

Add – prioritizing our community’s vision and values

Add something about stewarding opportunities to maintain/support our community

impacts

 What is positive?

It’s the definition of stewardship

General Comments

How do the business that support the wages in the community get served?

Are we including that we are stewards of current residents? Or do we just focus on increasing economic benefits and supporting more development? Would love to discuss this more with the group

Stewardship is a great value- but then we change to “manage” in the statement which seems a bit forceful or militaristic. It might be nice to include stewardship of other things – when I think of stewardship I think of a leader and a partner

It’s literally the definition of the word. I think the order should be infrastructure, fiscal resources, employees, and environment.

1. **Quality Workforce:** Instill a culture that attracts and sustains knowledgeable and engaged employees who embody the City's organizational values.

 What should change?

Not sure that culture is the way that we achieve these outcomes.
Are we managing an organizing that ...?
Culture – not a great word in general

 What is positive?

' Instill a culture that attracts'- this is positive but could be improve to include "culture and reputation"
Attract and sustain

General Comments

I like the quality workforce header
Not sure we have enough guidance towards management.
Do we prioritize a living and competitive wage in this goal?
I don't think the #1 goal of the City of Livingston should be the quality workforce.
This goal should be #5

2. Financial Stewardship: Create and maintain a financially sustainable budget to fund first the City’s responsibilities and then community enhancements by incorporating the City’s values and innovative funding sources.

What should change?

by incorporating the City’s values and innovative funding sources – this section lost me. Not sure how the City’s values fit here?

Innovative funding sources make me a little nervous

“fund first”

Responsibilities then enhancements

“community enhancements’- perhaps Community wants or needs might be better?

Innovative funding? Absolutely not.

What is positive?

Create and maintain a financially sustainable budget to fund first the City’s responsibilities and then community enhancements. Makes total senses

Sustainable budget

Responsibility first, then enhancements

General Comments

I might try something like “Develop the Cities funding sources to create a sustainable budget that funds the city’s responsibilities and then community enhancements.”

The priority of budget spending seems very specific to be part of the SP top line goals – either it is something that would be set out from the commission’s priorities and during budget meetings – or we could put our values in this statement (like competitive wages, housing priorities, etc)

There may be a better way to say this now that we have a robust growth policy/comprehensive plan.

This statement could include funding partnerships

Drop everything after enhancements, it’s superfluous.

This goal is properly in the #2 position

3. **Infrastructure:** Build and maintain infrastructure now and into the future in a strategic and responsible manner that promotes and sustains existing neighborhoods and accommodates growth.

 What should change?

Maybe a comment about population vs neighborhoods?

'strategic and responsible' seems repetitive, the we promote and sustain

Add that it should follow the growth policy vision and priorities

Accommodates growth

Could this be a place where we introduce the notion of growth through consolidation within city boundaries

Now and into the future

Promotes and sustains neighborhoods

And accommodates growth

 What is positive?

I like the focus on long-term infrastructure the community has been to reactive in the past.

Build and maintain infrastructure

General Comments

After infrastructure needs a rewrite.

Anticipates growth based on our community growth policy?

Should this include a reference to consider climate change or our changing climate when building new infrastructure?

We should put a descriptor on growth- healthy, compatible something like that

Build and maintain infrastructure in a manner consistent with the safe and responsible operation of the city.

This goal should be #4

4. Public Engagement/Collaboration: Inform and empower the community through open dialogue, user-friendly access to information, and a welcoming environment.

 What should change?

Not sure how collaboration and engagement is outlined in the statement.

Two-way dialogue where the community can engage with the city also

inform

“a welcoming environment’ - could be improved by adding inclusive

‘Collaboration’ - I think collaboration is very important but it does not seem to be included very well in the actual statement

“Collaboration”

 What is positive?

I do like the comments in the statement

User-friendly access to info

Welcoming environment

“user-friendly access to information” - this is very important and we need to continue to improve upon

Good statement

Access to information

Open dialogue

General Comments

I have always believed a small personal government will create engagement. Maybe too aspirational?

Perhaps change inform to provide information

We empower the community through open dialogue, easy access to information, and a welcoming environment.

This goal should be #5

5. **Safe and Healthy Community:** Foster community resilience by facilitating access to health & wellness resources, enhancing multimodal connectivity and providing stewardship of our natural environment.

 What should change?

I am not sure I know what the statement means. It could just be ignorance.

Stewardship of our natural environment seems like a stretch hear? Maybe that needs to be included under stewardship?

Facilitating access enhancing

What is multimodal connectivity? Resilience???? Don't know what replaces this but I don't know what this means

Nothing in this statement says anything about safety.

Multimodal connectivity?

Stewardship is already a goal

 What is positive?

Foster Community resilience is great

Stewardship of the natural environment

That it was included is the only positive I see.

General Comments

How does the mental health issue show up hear?

I'm not exactly sure what this means in this context

Improve this verb – perhaps to something like invest/improve/expand

“Safe and Healthy Community:” - this makes me consider our lack of affordable, how do talk about safe and healthy community when community members are losing their homes as rental turn to STRs and even the middle class can't afford to purchase a home.

while maintaining a wholesome place to live for all citizens.

Very confusing and essentially meaningless statement.

Whole thing needs to be re-done.

We ensure a safe community through well-trained, competent, and rational employees while supporting access to health and wellness services.

This goal should be #1, after it's re-written.

Next steps: (for 6/1)

1. We worked on the struggles facing the community. We now want to focus on the great things about the community. - Complete a list of the strengths of Livingston.
1. The Vision statement was not a destination or goal it was a how. Let's just do some brainstorming on where we want the city to go. This can be words or sentences.
1. We discussed the addition of a value of transparency or adjust/remove innovation.

Greatest strengths and opportunities for Livingston:

We have a very engaged, passionate and knowledgeable community
Incredible landscape and environment
We are the only year round entrance to Yellowstone National Park
Small town, historic character
Parts of our city are very walkable/bikeable
Close proximity to many natural resources
The optimistic and growing economy
The downtown
Ability to connect with any person you need
The natural beauty, mountains and river
Location, near YNP and Bozeman
Restaurants, bars and art gallery's
The Shane, Community Closet, and Food resource center
Area history and character
Access to so many great activities

strong sense of community - people who live here are invested in this place
lots of outdoor opportunities
business owners who collaborate with each other and the city
many non-profits that want to collaborate with the city
county gov't that wants to collaborate with the city
near YNP, Bozeman, and near two different more rural valleys w/ smaller communities
solid existing businesses, more seem to want to come
great community engagement, w/in and outside of gov't
community support for most funded essential services
The river/wind/environment
The small size
The downtown people/owners
The city employees I interact with have been and continue to be great people
The raw potential

STRENGTHS
A great downtown
A city in the landscape- minimal sprawl. And the opportunity to keep it that way
Terrific traditional (alleys) residential grid
An engaged population that cares about the city
OPPORTUNITIES
An enlightened growth policy

Focus on abundance and prosperity, not struggles and scarcity.

Current Vision Statement: A dedicated team of leaders working in collaboration with a diverse community to create a vibrant home surrounded by natural beauty, respectful of our unique history, and full of opportunity.

Objective 2.2.2: Establish Livingston as a community recognized for its diverse recreational opportunities, and parks and trails system.

Objective 2.2.3: Support traditional neighborhood design and active transportation.

Objective 3.1.2: Support economic, social, and environmental links between Livingston, the Extra-Territorial Jurisdiction (ETJ), and Park County by strengthening regional development planning.

Strategy 3.1.1.6: Encourage residential developments to provide neighborhood commercial areas serving residents within walking distance.

Not in the growth plan just my words: Implement policies and regulations that encourage the development of housing options for residents of the community. Focused on affordability and everyday citizens.

Goal 5.1: Provide housing options to meet the needs of all residents.

Objective 5.1.5: Create housing programs to retain employees, the elderly, and long-term residents.
