STATE OF EMERGENCY

JUNE 13, 2022: 11:10 p.m.

The City of Livingston and Park County have declared a state of ongoing emergency due to the flooding. This formal action allows both the City and County to access even more resources during this event. We have agencies from all over the state on site already and providing assistance with more to come.

The river is projected to crest at approximately midnight. The levy at Sac Park does have water over it currently. Please stay away from the area and allow our crews the space they need to work.

Our 911 Center is extremely busy coordinating efforts county-wide so please call only for emergencies.

Thank you to everyone from the City and County crews working very long hours and to the many, many volunteers who have helped in sandbagging efforts.
