Question/Comment

In considering the location I believe using the land the Civic Center is on is best. The area around the Civic Center and Sacajawae park has always been a gathering place for the community and events. It is an easy walking distance from all public schools to be accessed for after school activities! The Civic Center has served the community well but we have different needs as a community now and it is time to take the old down and start fresh!

My greatest request for the new wellness center is that the pool be positioned to be opened up to outside when weather permits. As Montanans we want to be out in the sun as much as possible during summer months. A wall of windows that open up horizontally or vertically would allow the summer days to still be a part of the pool experience.
