Question/Comment

As someone who has swam laps at the Livingston pool for the past 25 plus years, I am so grateful for the pool and the people who run it and then lifeguards that work there. We need a new pool and we need an indoor one along with a recreation center. We need a place for all people to go to for 12 months out of the year to recreate, meet with others, and participate in community activities. There is no one place that will be perfect for this recreation center and someone, or lots of someone's, will have things to say about it. But ultimately we just need a center. I personally do not care where the Center is built, as long as our community gets behind to support it. Like so many people before us who have tried to get an indoor pool and recreation center, after all the butting of heads, they have just given up. Let's not let it go this time. We have the opportunity, the community involvement and the numbers behind us, let's build a recreation center for everyone.
