Question/Comment

We are long overdue for an indoor pool, I think the civic center area is the best location as it is close to schools and easier to access than the other proposed areas. As far as it being in the floodplain I think that can be mitigated. It will be used by people of all ages for 12 months out of the year. Many towns our size and smaller have indoor pools/wellness centers and they are a great asset to those communities. It will have the potential to increase the health of our citizens, kids can learn to swim as it can be used by the schools and could be a healthy gathering place for all. Let's make it happen.
