Question/Comment

I love the idea of a Wellness Center and think of the extraordinary building in Cody, Wyoming. It has lots of options and lots of parking and is not downtown or on the river. It's not next to schools, but is widely used by students and the public.

Obviously, losing \$4M is a giant issue...but I share the view that the Civic Center means much to many - I assume construction would eliminate at least a year of events at the bandshell and close the skate park. That makes the M Street location an interesting option.

Last week was the hottest on the planet in history. The reality of climate change insures floods will continue to happen and likely increase. Please choose a location NOT in the flood plain.

I live on the north side and would love it over here - I hope an overpass/underpass gets back on everyone's radar. I'm happy to pay my fair share and will utilize the facilities wherever they end up.
