Question/Comment

I'm writing with a comment about the proposed recreation facility. My partner and I own a house on S. 6th Street, and we both feel strongly that the rec center should include a fitness center (with weights, strength training machines, etc.). There are currently limited choices in Livingston for this, and a fitness center at the gym would help to sell memberships and bring people to the facility for daily workouts. The proposed tax increase would also be offset (in part) by not having to buy a gym membership elsewhere (that can run 40/ 50 dollars per month). This is true of rec centers in other communities where we've lived. Thank you.
