Question/Comment

I am pleased that Livingston is considering a new recreation center. I strongly support the construction.

However, I am concerned about constructing the facility in the city's flood zone. I remember when the Middle School was built on the floodplain. I could not believe that any new buildings would be permitted in this area, and now some are proposing a big recreation center in the same vulnerable site.

We know that climate change is creating unpredictable and often greater magnitude events like floods.

As a city taxpayer, and property owner, Please consider an alternative site.

Thank you.
