Question/Comment

I am very excited about the prospect of our community getting an indoor swimming pool and wellness center! As co-owner of a local physical therapy clinic for the past 24 years, there have been many patients who would have benefitted from swimming or exercising in the buoyancy of an aquatic environment, but that hasn't been feasible most of the year. With more extreme weather and smoky skies, an indoor walking track will also be highly beneficial to the community. I am very grateful to all of the people who have spent countless hours to bring this project to fruition and obtain funding for it.

Regarding location, I personally am opposed to the Civic Center site, both for flood plain considerations, but even more so, to try not to potentially increase traffic, obstruct viewscapes and modernize a historical, free and well-used recreational area of the park. I would favor the Northside soccer fields over the other locations.
