Question/Comment

The wellness center would be a great resource for the community and would serve a multi-generational population. It would be a wonderful addition to healthy lifestyles, both physically and mentally. There would be great opportunities to offer recreational classes for Livingston School District kids/administration, as well as individuals throughout Park County. For this reason-- school resources, parking, central location and also constructive infill of city land, I favor the Civic Center location. As the largest piece of land in the list of proposals for this venture, the Civic Center offers the best possibility for development that will best serve the effort of the center. I'm not sure about the costs of removing the old Civic Center in comparison to completely new construction costs of the other locations, but this still seems to be the best longterm choice for infrastructure, community accessibility, school access and a traffic flow.

My reluctance with the other locations is that the traffic at railroad crossings would continue to be an issue and increased traffic in residential areas may also become problematic in the future.

Thank you for the consideration.
